

## DOSSIER B

*We asked residents where they were when the missing person was last seen and if they saw the suspect. These transcripts don't seem to add up, but can you bring order to them to reveal the location of the suspect's secret hideout?*

**Alexander:** I was at the grocery store, staring at the five electric cars powered by the two solar panels.

**Ben:** I was at the park on multiple occasions last morning – three I think – and only saw four geese walking there.

**Cameron:** When I was with my pets (five in total, minus the four mice who don't like the sun), I saw something suspicious at the post office.

**Dale:** Four fire trucks divided up 36th Street due to the smoke fumes near the diner.

**Evelyn:** I was near 9th Street and 2nd Avenue, a relic of older times in the city that I doubt has much crime.

**Fiona:** I had my one daughter plus one of my favorite neighbor's cats with me; we weren't close to the crime.

**Giovanna:** The ten sports cars at the town hall, in addition to the eight motorcycles behind them, were odd.

*Please put your work on the provided whiteboard space.*
